

## REQUEST FORM FOR COLORADO PARKS AND WILDLIFE AQUATIC DATA

1. (a) Name (s) of persons requesting data:

\_\_\_\_\_ Dan Wall \_\_\_\_\_

1. (b) Organization/Company/Agency Name (s):

\_\_\_\_\_ EPA \_\_\_\_\_

1. (c) Organization/Company Agency Contact Information:

PHONE: 303-312-6560 \_\_\_\_\_ FAX: \_\_\_\_\_ email: wall.dan@epa.gov \_\_\_\_\_

(Email address is where electronic data files would be sent)

1. (d) Ultimate person/organization asking for the data (i.e. if a consultant is making this request, who is the client?):

\_\_\_\_\_ Dan Wall \_\_\_\_\_

2. (a) We are requesting data for the following water bodies/geographic area:

Animas River

(Note that CPW does not typically distribute point-sample locations or generate GIS maps)

2. (b) Describe the data you are requesting (fish species distributions? Water quality parameters?):

\_\_\_\_\_ 2015 population estimate \_\_\_\_\_

3. Please describe your intended use for this data: \_\_\_\_\_ EPA would like to include this data as part of an ecological risk assessment of the effects of mining related contamination \_\_\_\_\_

4. You are advised of the following regarding the requested data:

(a) the data may be exempt from the Colorado Open Records Act, in which case, CPW may deny your request (refer to CORA for exemptions)

(b) the data may be in provisional status (i.e., error check still in progress)

(c) raw data values should not be changed. If you have original or copies of data sheets or previous exports with differences in the data you receive, please call or email for possible corrections.

(d) Do not redistribute this data to parties not listed above. Other parties must submit a formal request to CPW to insure that they receive the most updated version of the data available.

## REQUEST FORM FOR COLORADO PARKS AND WILDLIFE AQUATIC DATA

### Resolution of CPW Aquatic Data Request

In order to speed up the approval and data distribution process, please further define you data needs. While we will strive to give you the data you have requested in a timely manner, keep in mind that the lower the resolution of your data request, the less scrutiny (and thus time) required by the data request review committee, and also the more likely that your request will be approved. Note that requests for raw data will need to demonstrate this need to the committee before approval will be granted.

Please mark/highlight the resolution you require and return to [Andrew.Treble@state.co.us](mailto:Andrew.Treble@state.co.us)

#### What level of fish data are you requesting (Species Resolution):

- |   |                                     |
|---|-------------------------------------|
| (1) Species Occurrence (For all species? For specific species?)     | <input type="checkbox"/>            |
| (2) Species numbers, size ranges, population estimates, and biomass | <input checked="" type="checkbox"/> |
| (3) Data on individual fish collections                             | <input checked="" type="checkbox"/> |
| (4) Creel Survey Data?  | <input type="checkbox"/>            |
| (5) Fish Stocking Data  | <input type="checkbox"/>            |

#### At what scale do you want this data summarized (Spatial Resolution):

- |                                     |                                     |
|-------------------------------------|-------------------------------------|
| (1) Basin (6 digit HUC)             | <input type="checkbox"/>            |
| (2) Sub basin (8 Digit HUC)         | <input type="checkbox"/>            |
| (3) Watershed (10 Digit HUC)        | <input type="checkbox"/>            |
| (4) Sub-Watershed (12 digit HUC)    | <input type="checkbox"/>            |
| (5) Catchment                       | <input type="checkbox"/>            |
| (6) Individual Survey Sample points | <input checked="" type="checkbox"/> |

#### How far back do you want to go (Temporal Resolution):

- |  |                          |
|--|--------------------------|
| (1) Only the most recent surveys                         | <input type="checkbox"/> |
| (2) Back to a specific year? Please specify: <u>2015</u> | <input type="checkbox"/> |
| (3) All data in the CPW Aquatics Database                | <input type="checkbox"/> |

#### Additional Explanation or requirements:

EPA is interested in the data from 2015 that was done in response to the Gold King Incident. It is our understanding that there were population estimates from Howardsville through Durango in the Animas and Fry shocking at 7 locations. We were informed that not all the data will be entered into the CPW database until Dec/Jan time frame and if it preferable to wait until all the data is in that is fine.
